

Finding Your Hospital's Antech Order Codes (For use with the AVImark Antech Lab Requisition Forms)

In order to properly map/assign your hospital's treatment or billing codes in your AVImark to the correct corresponding Antech Lab Order Code, it is the clinic's responsibility to enter each **Antech Order Code** on the Advanced tab of the Change Treatment window within the Treatment List of AVImark.

Antech Clients can obtain their hospital's most commonly used **Antech Order Codes** by one of the following three options (or a combination of these options.) Please be aware that there can be separate (but sometimes overlapping) codes for Antech East, Antech West and Antech Canada clients. Be careful to use the codes for the Antech region you belong to, as many of the codes are different depending on which lab your hospital uses.

1. Zoasis Top Tests Report - Antech Online at www.zoasis.com

The Zoasis Top Tests Report is most efficient way to get a list of your hospital's most commonly used **Antech Order Codes**. This report is available to all Antech clients, as long as they have submitted lab samples to Antech within the previous month. If you have never used Zoasis before, please contact your Antech Representative for details on how to access your Antech Online account through Zoasis.

Quick Step by Step on obtaining a copy of your hospital's Top Tests Report on Zoasis

- Log into your Zoasis account (www.zoasis.com)
- Click on Laboratory > Reports
- Locate the Business Report called Top Test Report
- You can print the report by clicking on Actions > Print

The screenshot shows the Zoasis Laboratory Reports interface. The top navigation bar includes 'HOME', 'LABORATORY' (highlighted), 'PURCHASING', and 'HEALTHY PET'. Below this is a sub-menu with 'LIBRARY', 'MY ACCOUNT', and 'HELP'. The main content area is titled 'Laboratory' and contains a 'REPORTS' section with a dropdown menu set to 'Top Tests'. The report is for the month of July 2007. The table below lists various tests with columns for Order Code, Description, Report Month, Previous Month, Change (%), and YTD. A red box highlights the 'Actions...' column, and a red arrow points to the 'Print' option.

Order Code	Description	Report Month	Previous Month	Change (%)	YTD	Actions...
405	Ova & Parasite/Giardia (ELISA)	382	419	-8	2374	0
T615	Occult Heartworm Antigen	181	231	-21	1211	129
5013	Geriatric Senior Profile	128	117	9	926	750
T835	Urine Microalbumin (Canine)	124	126	-1	858	619
85891	Urine Microalbumin (Feline)	120	96	25	767	657
80030	Geriatric Profile (No UA)	85	102	-16	619	618
3004	Profile Urinalysis	36	35	2	230	164
T495	T4	35	24	45	194	219
CYTO	Cytology	34	41	-17	330	187
9978	Basic Wellness Screen	33	32	3	196	128
T760	Urinalysis	32	32	0	225	156
M130	Culture (Urine)	31	35	-11	148	0
99780	Basic Wellness Screen (No Urine)	27	43	-37	217	191
85424	Canine Wellness Profile	26	22	18	138	149
FBX	Biopsy	17	13	30	114	143
9523	General Senior Profile	14	8	75	51	94
SA440	Hyperthyroid Panel	14	18	-22	106	84
T330	Complete Blood Count	14	12	16	65	66
9816	Free T4 (Add On)	14	10	40	83	27
SA025	Vet-Screen	13	11	18	67	23

2. Antech Test Request Forms

The Antech standard Test Request Forms also contain the most commonly used **Antech Order Codes**. These are the triplicate printed forms that you receive from Antech Diagnostics, if you wish to use the handwritten forms to submit with your samples to the laboratory.

3. Antech Customer Service Team or your local Antech Territory Manager

If you are still unsure of what **Antech Order Code** to use or you are looking for a special test that is not on any of these lists, please contact an Antech Representative for assistance. You can call your local Antech Territory Manager or you may call Antech Customer Service at one of the following four numbers, depending on the region where you clinic is located.

Antech West Accounts: (800) 745-4725

Antech East Accounts: (800) 872-1001

Antech Test Express: (888) 397-8378

Antech Canada Accounts: (800) 341-3440

See screen shot below for an example of where to enter the **Antech Order Code** in your AVImark software. Please Note: The AVImark software (version 183.9.1 and higher) no longer needs the Antech Ext/Profile ID filled in prior to creating an Antech Lab Requisition Form. It is the clinics responsibility to enter the Order Code for each test. The Ext/Profile ID# will be automatically filled in by the software when the treatment is defined (during result import process.) For more details on the AVImark Lab Requisition Program, please refer to AVImark's Documentation or contact AVImark Tech Support at 877-838-9273, Option 1 or support@avimark.net.

The screenshot shows a software window titled "Change Treatment" with a search icon in the top left and a close button in the top right. The window contains several tabs: "Treatment", "Advanced", "Contract Prices", "Documents", "Whiteboard", and "Laboratory". Below these tabs are sub-tabs: "Antech", "Vet Connect", "DICOM", and "Instrument Types". The main area of the window has two input fields: "Antech Ext/Profile ID" with the value "921" and "Antech Order Code" with the value "LD50". A red arrow points to the "Antech Order Code" field. At the bottom of the window, there are four buttons: "Next" (with a downward arrow), "Prior" (with an upward arrow), "OK" (with a green checkmark), and "Cancel" (with a red X). The word "Modified" is visible in the bottom left corner of the window's border.
